Much more than just Garage Doors

Here at Access Garage Doors we've been delivering top class garage door services to customers throughout London and the South East since 1976.

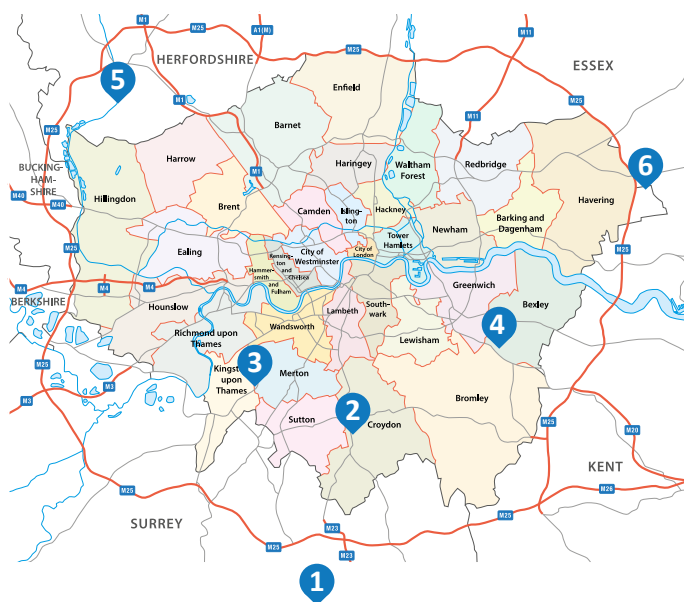

We install, repair and automate thousands of garage doors every year.

Working directly with leading garage door manufacturers enables us to bring you a **premium product at a great price with an expert service**. Our team of fully trained professionals will make choosing your new door a great, no hassle experience. A peace of mind from the initial contact to final delivery, installation and product demonstration.

We have several **showrooms across Greater London**, where you could see our products in action and talk directly to a garage door expert, who will be happy to give advice, help choosing the right product to suit your requirements, budget as well as the style of your property.

But we do **much more than just garage doors**. Our product portfolio also includes front doors, bifolding and sliding patio doors, patio awnings, garage door spares and our very own, unique and innovative garage door threshold seal - the Weather Defender (*more details on p.15*).

If you want more information or to see our range of products, then head over to a showroom near you or visit www.accessgaragedoors.com

**Free no-obligation surveys and estimates on all new installations only. Excludes repairs.*

No hassle experience - top quality products - expert service
- ✓ **Branches & Showrooms across the South East**
Visit us, meet the experts and see the products live in action

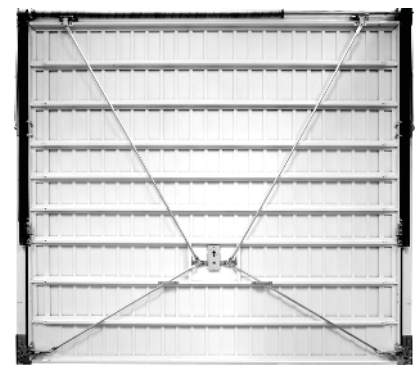

Hormann Double Retractable Up-and-Over Garage Door Style 984

Up-and-Over Garage Doors

Access Garage Doors provide a full range of Steel, ABS, Timber and GRP Up-and-Over garage doors. Available in a wide selection of door styles, colours and finishes. Their flexibility in panel design, high security and easy operation are just some of the benefits.

A one piece up and over garage door is usually constructed from a single panel which has the ability to be almost any design in a wide range of materials. The door panel is lifted up and then tilts to lay flat above your head, hence the name 'up and over'.

Up & Over garage doors are essentially available with two types of mechanism, canopy gear, also known as trackless canopy and retractable gear also known as tracked or slideaway.

Above: SBD (Secured by Design) Garador Carlton Canopy Up-and-Over Garage Door with 4 point locking

Canopy Gear Up-and-Over Garage Doors

One of the most popular and affordable garage door types, available in a great range of materials and designs.

- ✓ **Suitable for most applications** as the canopy tracks are mounted vertically on the door frame so no headroom inside the garage is taken.
- ✓ **Primarily intended for manual use**, it is ideal for use where no power is available, although automation is possible with a special operator or an operator conversion arm (*img.X*).
- ✓ **The biggest range of designs** to choose from. Canopy doors come in a vast array of material choice, including Steel, GRP, Timber, ABS.
- ✓ **Suitable for single size openings** up to a max door size of 8'0" x 7'0".

Typical Up-and-Over Garage Door with Canopy Gear

A small selection of available colours for steel Up-and-Over Garage Doors

1. Traffic White | 2. Pigeon Blue | 3. Signal Blue | 4. Fir Green | 5. Ruby Red | 6. Terra Brown | 7. Anthracite

X. Special conversion arm that allows automation on Hormann and Garador Canopy Style Up-and-Over Garage Doors

Retractable Gear

Up-and-Over Garage Doors

One of the most popular and affordable garage door types, available in a great range of materials and designs.

- ✓ **Suitable for the majority of applications** but has restrictions due to the retractable tracks' ingress into the garage horizontally at the door height.
- ✓ **Suitable for direct automation** using a standard operator with no need for a conversion arm – this can be fitted at the same time as the door or easily retrofitted at a later date.
- ✓ **Vast array of material choice** including Steel, GRP, Timber, ABS and along with Canopy geared doors has the biggest range of design choices.
- ✓ **Suitable for single and double size openings** with a maximum door size of 16'0" x 7'0".

Typical Retractable Up-and-Over Garage Door with automation provided by Hormann ProMatic Operator

A small selection of available designs and finishes of Hormann Up-and-Over Garage Doors

A pair of Garador Kingsbury Timber Up-and-Over Garage Doors

Garador Carlton Canopy Garage Doors in Light Grey

SeceuroGlide Excel Double Roller Garage Door in Anthracite Grey

Roller Garage Doors

The roller shutter garage door is one of the neatest garage door solutions available, with smooth vertical operation and no internal tracking mechanism cluttering the inside of your garage. With an almost limitless selection of pre-finished colours and woodgrain finishes.

- ✓ **Space saving** as door rolls into a coil in the space above the door, meaning no tracks ingress into the garage.
- ✓ **Vertical Lifting – maximising the external space available** ideal where limited drive way space is available and a requirement where the door space opens onto a public by-way.
- ✓ **Available as insulated or non-insulated**
- ✓ **Manufactured from either steel or aluminium** (depending on class of door)
- ✓ **Secured by Design** and specific high security options available.
- ✓ **Automatic as standard with manual options available** manual doors cannot have motors retro-fitted.
- ✓ **Wide range of colours and wood effects** available.

Typical construction of Roller Garage Door

Roller doors are made from steel or aluminium slats filled with PU foam.
1. Vision Slat with Windows | **2. Slat with Ventilation Grille** | **3. Typical Roller Door Slat**

SeceuroGlide Excel Roller Garage Door in Pigeon Blue

Hormann Rollmatic Garage Door in Golden Oak Decograin matching the style of the property

Two SeceuroGlide Classic Roller Garage Doors Secured by Design (SBD) as standard

Hormann M Ribbed Sectional Double Garage Door in Anthracite Grey

Sectional Garage Doors

Insulated sectional garage doors are highly secure, durable and energy efficient. There are endless options to choose from, including different materials, finishes and window options. Available in manual and automatic operation. These garage doors are so well engineered that they will provide years of trouble free use.

- ✓ **Vertical Lifting** – maximising the external space available ideal where limited driveway space is available and a requirement where the door space opens onto a public by-way.
- ✓ **Available in Steel or Timber**
- ✓ **Available as insulated or non-insulated** with insulated doors reaching the best thermal insulation properties of all types.
- ✓ **Widest range of colour choice** with most RAL colours available. (except pearl colours)
- ✓ **Can be automated easily** or provided as a manually operated door.
- ✓ **Sealed all round** with rubber gaskets on the frame legs and header and a rubber compression seal on the bottom of the door, helping prevent ingress of leaves, debris and draughts.
- ✓ **High level of security** with insulated doors.

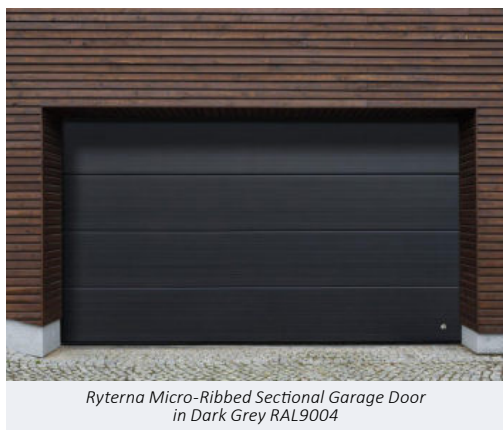

1. Energy saving LPU 67 Thermo section | 2. Double skinned LPU 42 section
3. Inexpensive single skin LTE 42 section | 4. Solid timber LTH 42 section

Typical construction of an automatic Sectional Garage Door

SeceuroGlide Elite Sectional Double Garage Door
Flame Red, Smooth Centre Ribbed

Ryterna Micro-Ribbed Sectional Garage Door
in Dark Grey RAL9004

Hormann S-Panelled Sectional Garage Door
in Decograin Golden Oak

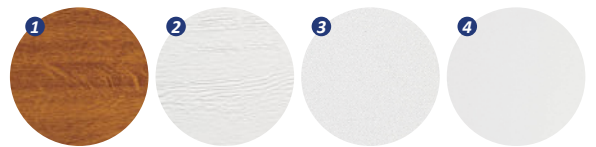

Hormann HST L-Ribbed Sliding Sectional Double Garage Door in Silkgrain Anthracite Grey

Side Sliding Sectional Garage Doors

Ideal solution for special fitting situations as the door opens to the side instead of upwards. Need to keep the garage ceiling free to store items? The door leaf cannot be stowed underneath or fixed to the ceiling due to construction reasons such as sloped roof, low lintel or obstructive drainpipes? Excellent acoustic and thermal insulation in addition to good door leaf stability and smooth running.

- ✓ Excellent acoustic and thermal insulation
- ✓ Can be automatic or manual
- ✓ Can be set to partial opening to maintain privacy.
- ✓ Available in most RAL colours
- ✓ Steel and aluminium versions are insulated
- ✓ Provides a high level of security
- ✓ Makes additional space available in the garage by utilising the space available above the door.

Steel surface finishes (Sectional & Side Sliding Sectional Garage Doors)
1. Decograin | 2. Woodgrain | 3. Sandgrain | 4. Silkgrain

Typical construction of Side Sliding Sectional Garage Door

A. Top Twin Rollers | B. Sliding Door Handle

Ryterna Side Sliding Garage Door with Smooth Flush Panels & Design Elements

Hormann HST M-Ribbed Sliding Sectional Door in White

Hormann HST Sliding Sectional Door L-Ribbed in Grey Aluminium RAL9007

SeceuroGlide Vertico Side Sliding Garage Door in Metallic Aluminium

SeceuroGlide Vertico - Side Sliding Garage Doors

A unique and stylish solution for any garage design, making the most of your garage space and creating a design feature for your home. When space is tight, you need an automatic garage door that doesn't require masses of headroom or acres of space for overhead motors. With the SeceuroGlide Vertico you won't need either – requiring only 50 mm headroom & 130 mm at the corner, the Vertico garage door is one of the most compact on the market.

- ✓ Durable solid aluminium garage door
- ✓ Ideal choice for heated garages and workshops
- ✓ Requires only 50mm of headroom
- ✓ Partial opening ensuring minimal heat-loss
- ✓ Available in 12 stylish colours as standard
- ✓ Exceptionally smooth operation and insulation
- ✓ Fitted with a motor and obstacle detection device
- ✓ Available up to 5620 mm wide

Typical construction of Vertico Side Sliding Garage Door

A. Top Rail Detail | B.D. Bottom Rollers/Track | C. Minimum Corner Radius 130mm

SeceuroGlide Vertico Sliding Door in White

SeceuroGlide Vertico Sliding Garage Door in Black (corner installation)

SeceuroGlide Vertico Sliding Garage Door in Fir Green (corner installation with split door)

Hormann NT60 Double Leaf L-Ribbed Insulated Garage Doors in Anthracite Grey Silkgrain

Ryterna Side Hinged Garage Doors

Ryterna Side Hinged Garage Doors

Side Hinged Garage Doors

Side Hinged garage doors combine robust and reliable performance with simple personal access and are available in a range of steel and timber door styles. These doors provide extra space inside the garage and are a great solution for garages where access to wall space or utility boxes is required near the door entrance.

- ✓ Available in traditional and contemporary designs
- ✓ Steel, timber and GRP options available.
- ✓ Steel insulated options available.
- ✓ Various configurations available such as 50/50 split, 2/3rd – 1/3rd Split, Right hand or left hand leading - some brands offer inward opening.
- ✓ Large array of designs and glazing options

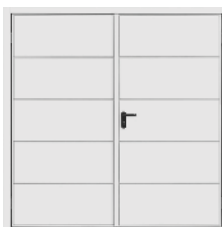

Typical construction of Side Hinged Garage Door

Front Doors

Your new front door should be very special and should match the style of your home as well as express your taste. Whether you seek a traditional or modern look of your new front door, we have a vast choice of styles available in a number of different materials such as steel, aluminium, timber or composite. High security options and great thermal insulation are just as essential as the appearance when considering a new entrance door.

- ✓ **Vast choice of styles and designs**
We have a great looking front door to match any property.
- ✓ **Wide range of colours and finishes** with most RAL colours available.
(except pearl colours)
- ✓ **Available in Composite, Aluminium, Steel or Timber**
- ✓ **Excellent thermal insulation**
Hormann's ThermoCarbon entrance doors feature unparalleled U_d values up to 0.47W/(m²xK).
- ✓ **Highly secure** as standard with break-in resistant security class RC3 or RC4, laminated safety glass and 5 point locking on most Hormann front doors.

Hormann Entrance Door profiles
 1. ThermoCarbon features U_d Values up to 0.47W/(m²xK) | RC3
 2. ThermoPlan Hybrid features U_d Values up to 0.78W/(m²xK) | RC3
 3. Thermo65 features U_d Values up to 0.87W/(m²xK) | RC2

A small selection of available front door styles and designs

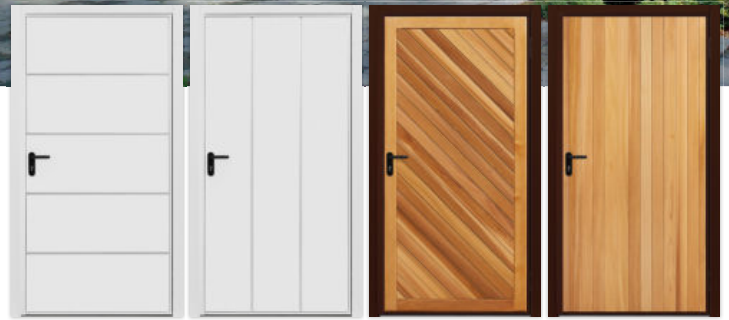

Personnel / Side Doors

Side doors are a convenient addition to your garage door, if you want to quickly access the garage without opening the garage door or when the garage door is obstructed. We offer matching side doors to most styles of up-and-over, sectional or roller garage doors so they both can create a harmonious appearance.

Ask us for more information on our side doors range.

- ✓ **Quick access to your garage or side of house**
No need to open the garage door to gain access to your garage.
- ✓ **Matching styles available**
Choose a style that matches the style of your garage door.
- ✓ **Optional features**
Improve thermal insulation or add security with 3 point locking.

BiFolding & Sliding Doors

The perfect house to garden solution for many homeowners. Opening up the property and letting the light flood in, whilst enjoying the view and connection with the outside. We offer a comprehensive range of both BiFolding and Sliding doors, including low thresholds, which allow for a low level access between your home and garden.

- ✓ **Bespoke designed**
Made to fit the size of the structural opening.
- ✓ **Slim aluminium frames available**
Lightweight and durable with advanced glazing options.
- ✓ **Easy operation**
Sliding and folding the door is a pleasure every time.
- ✓ **Security to rely on**
Latest security features to ensure peace of mind.
(some door available as Secured by Design if required)
- ✓ **Available in a wide range of RAL colours**
Some doors available from stock in grey, white or black.

Markilux 6000 Awning with a free-standing shading system Markilux Markant & Markilux Format Privacy Screens in the background

Awnings & Shading Systems

Add value and comfort to your property with a Markilux awning. German engineered shading solutions, offering privacy, UV protection and stylish appearance while allowing you to enjoy your garden, patio or balcony through all seasons. We offer over 45 systems with more than 250 timeless fabric designs and a great range of accessories to fit your taste and requirements.

- ✓ **The widest variety of models, colours and designs**
 Combination of modern colours, classic designs and patterns will allow your new awning to be truly unique.
- ✓ **Great range of options and extras**
 Add lighting, radiant heaters, wind and sun light sensors or even automatic retraction in windy conditions.
- ✓ **Manual or automatic operation**
 Easy operation whether you choose the standard crank winding handle or radio controlled silent motor with a wall and hand-held transmitters.
- ✓ **Award winning - German engineered**
 High-tech fabrics manufactured in Germany set standards of quality in UV protection and ease of care. Will maintain their shape and colour for years.
- ✓ **Custom sizes up to 7m wide x 4m projection**
 Certain awning models can be 'coupled' to cover larger areas.

Visit our dedicated website www.accessawnings.com to find out more.

1. Bionic tendons as standard | 2. Shadeplus vertical shading

Cones & Cables

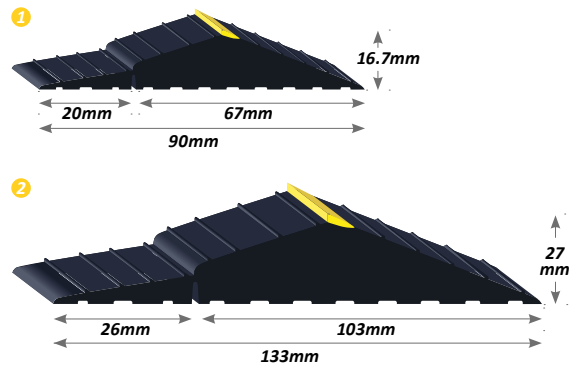

Weather Defender

Weather Defender – The Ultimate Garage Door Threshold Seal is designed to protect your garage from leaves, dust, debris, rodents and rain by creating a seal between the garage door and floor.

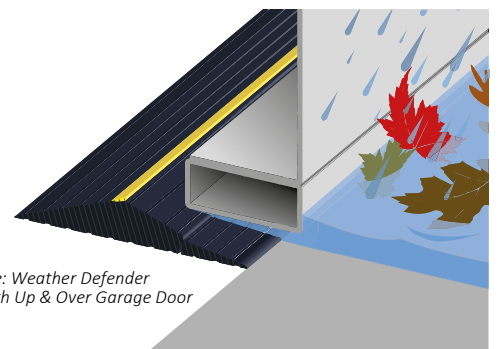

Produced from a high quality, flexible and eco-friendly marine grade PVC that can withstand driving over by cars, trucks or commercial vehicles, equipped with inflatable or solid rubber tyres.

The NEW bigger Weather Defender XL can be used in industrial environments with heavier traffic and is perfect to fit wider industrial door profiles. Unlike any other garage door threshold seal on the market, ours won't perish or deflate over time!

- ✓ **Stops rainwater, draughts and leaves** from entering your garage.
- ✓ **Keeps your garage clean and dry**
- ✓ **Suitable for most types of garage doors**
- ✓ **Available in multiple length kits** (includes the adhesive)
- ✓ **Suitable for various sizes of gap**
- ✓ **Easy to install**
- ✓ **Unique & innovative design**

1. Weather Defender Original - seals gaps up to 14mm
2. Weather Defender XL - seals gaps up to 24mm

Example: Weather Defender used with Up & Over Garage Door

Weather Defender XL Installed behind the garage door frame
